

BIOMETRIC DOOR ENTRY SYSTEMS

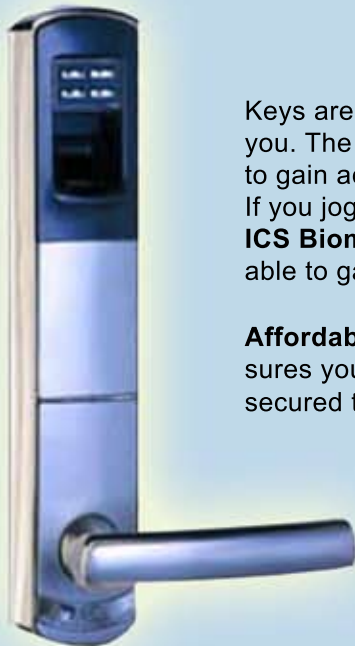

Biometric Door Entry Systems from ICS

The **Fingerprint Door Lock with Keypad** from ICS is the easiest way to unlock a Door. Keep the key in your pocket or purse, to open the door, just press the **fingerprint sensor** with your registered finger or enter your PIN. It is great for a house keeper or Guest or anyone that you would rather not have a key to enter your House, Office, Meeting Room or Storage Area. It is easy to install and configure. Requires 4 AA Batteries which last about 1 year in normal operation.

The state of the art **ICS Biometric Lock** is set for home, office or meeting room. The advanced technology of the **ICS Biometric Lock** comes equipped with **five latch security** and is ready to install. It is made from **Zinc alloy material** with polished gold edge and pearl chrome that offers a secured sleek application.

The **ICS Biometric Lock** allows **fingerprints** to be **enrolled** and **erased directly on lock**, no PC connection is required. Easy

Keys are often lost, stolen or forgotten, your fingerprint is always with you. The **ICS Biometric Lock** is so **easy to use**, your children are able to gain access to their home without the hassle of keeping track of keys. If you jog, walk, run or garden, there is **no need to carry your keys**. The **ICS Biometric Lock** gives you the confidence that loved ones will be able to gain access to your home when you can't be there.

Affordable, Reliable, Easy and Secure. The **ICS Biometric Lock** ensures you the high tech access to your home, office or rooms you want secured through simple **fingerprint recognition**.
